

KREOTEC | 5 ha

ADVANCING NITROGEN MANAGEMENT

COMPOSITION:

Microbial complex	3 x 10 ⁷ CFU/g
-------------------	---------------------------

Bacillus velezensis	1 x 10 ⁷ CFU/g
---------------------	---------------------------

Azospirillum brasilense	1 x 10 ⁷ CFU/g
-------------------------	---------------------------

Herbaspirillum seropedicae	1 x 10 ⁷ CFU/g
----------------------------	---------------------------

**IN ORDER TO AVOID RISKS TO PEOPLE AND THE ENVIRONMENT,
FOLLOW THE INSTRUCTIONS FOR USE**

GUARANTEED AND DISTRIBUTED BY:
Thinkbio Pty Ltd. 1/206T Alison Rd,
Randwick NSW 2031, Australia.

MANUFACTURED BY:
Symborg Business Development S.L. Avda.
Jesús Martínez Cortado, 51. P.I. Cabezo
Cortado, 30100, Murcia, Spain.

NET WEIGHT

1KG

Bio-fertiliser based on exclusive microbial complex. **KREOTEC** contains the exclusive microbial complex (*Bacillus velezensis* - 1×10^7 CFU/g, *Azospirillum brasilense* - 1×10^7 CFU/g and *Herbaspirillum seropedicae* - 1×10^7 CFU/g). **KREOTEC** improves the delivery of nitrogen to the crop through enhanced nutrient use efficiency and nitrogen fixation, allowing growers to reduce levels of applied inorganic nitrogen.

DIRECTIONS FOR USE

Cereals (wheat, barley, oats, rye, triticale, sorghum), corn, soybean, alfalfa and cotton should be applied at a crop development stage between BBCH 13 and 16 with a dose* of 200 g/ha. For rice, apply the same dose* between BBCH 13 and 14.

* Recommended application with a broth volume between 80 and 250 l.

KREOTEC is intended to be applied by foliar application in the early stages of the development of the crop, for that it must be previously dissolved in clear water.

Compatibility: Check with the company for the list of herbicides tested in combined application.

Incompatibility: It is not recommended for combined application with chlorinated herbicides or to use chlorinated water for the application. It is not recommended adding surfactants or plant protection products that contain surfactants.

Storage conditions: Store in a well-ventilated place. Keep container tightly closed. Store at room temperature; for prolonged periods it is recommended to store refrigerated. Do not subject to temperatures exceeding 20°C.

Precautionary statements

Keep out of reach of children. Avoid breathing dust. Do not get in eyes, on skin, or on clothing. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves, goggles and protective mask. Call a POISON CENTRE if you feel unwell. Store in a well-ventilated place. Keep container tightly closed. Collect spillage.

Contains microorganisms. May cause allergic reactions. The use of respiratory protection equipment (disposable respirator or filter mask, at least EN 149 FFP3 or equivalent) is recommended when handling the preparation or applying the product.

Recommendation to Doctor. First aids:

IF ON SKIN: Wash with plenty of water and soap. If skin irritation occurs: Get medical advice.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. If experiencing respiratory symptoms: Call a doctor. If medical advice is needed, have product container or label at hand.

DO NOT LEAVE THE PATIENT ALONE.

Therapeutic advises: Symptomatic treatment

Call a doctor if you feel unwell. Have product container or label at hand.

Risks mitigation in handling: It is recommended to use respiratory protection (respiratory mask EN 149 FFP3 or equivalent) when handling and during the application.

Environmental risk mitigation: DO NOT CONTAMINATE SURFACE WATER NEITHER PRODUCT NOR ITS CONTAINER. Do not clean the application vessel/tank near surface water. Avoid contamination to waterways.

Disposal conditions: Rinse container thoroughly three times. Add washings to the tank. Empty packaging should be disposed of according to local requirements.

CONDITIONS OF SALE AND WARNINGS: The recommendations and information we provide are the result of extensive and rigorous studies and trials. However, numerous factors that are beyond our control (preparation of mixtures, application, climatology, etc.) can intervene in the use. The company guarantees the composition, formulation and content. The user will be responsible for the damages caused (lack of efficacy, general toxicity, waste, etc.) due to total or partial non-observance of the instructions on the label.
